10-Year Framework of Programmes on Sustainable Consumption and Production

Launching the official reporting on SDG12.1 for Member States

SDG12.1 reporting 2019 – Support to 10YFP National Focal Points
29th July 2019
Introduction to the SDG12.1 reporting

Why report on SDG12.1?

What to report?

How to report?

Value of the reporting
First target of SDG12: “Implement the 10YFP, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries” (SDG12.1)

Indicator of progress (Tier II) “Number of countries with SCP national action plans or SCP mainstreamed as a priority or a target into national policies”

What does “tier II” means? Indicator is conceptually clear, has an internationally established methodology and standards are available, but data are not regularly produced by countries.
Introduction to SDG12.1 reporting

What is the reporting timeline?
29 July 2019 – 15 November 2019

10YFP National Focal Points
• Collect data and report on behalf of their country

10YFP Secretariat in UNEP
• Administers the reporting process

UN Stats
• Manages the SDG indicators database

HLPF (July 2020)
• Reviews SDG implementation and receives reports

Member States can report in English, Spanish and French
Why report on SDG12.1?

- Follow up on strong commitments made over the last 25 years
- Collect, compile and review policies that contribute to SCP, better understand their results and impacts
- Encourage cooperation on SCP across the government and policy coherence
- Report achievements and communicate on contribution to the 10YFP implementation at national level
- Highlight progress on sustainable development and in specific sectors
- Demonstrate progress on other policy targets for which no reporting mechanism is in place yet – Tier III indicators (e.g. SPP, ST, Education)
What to report?

**Policy instruments**

Any type of national plans and strategies, as well as to the means – methodologies, measures or interventions – that are used to achieve the objectives set in such plans and strategies.

**Implementation activities**

Specific activities through which those instruments are being implemented.

Example: a national regulation on sustainable public procurement has been adopted (policy instrument). To support the implementation of this new regulation, a guidance manual targeted at procurers in public administrations has been developed (implementation activity).
4 Types of instruments

1. National strategies, roadmaps or plans
   - National Action Plan for SCP; National Sustainable Development Strategy; Green Economy Roadmap; etc.

2. Legal / regulatory instruments
   - Laws, regulations, standards, prescriptions or prohibitions, where the highest level of compliance is expected.

3. Economic / fiscal instruments
   - Economic incentives and disincentives which aim at bringing about an intended behavior or outcome.

4. Voluntary / information-based instruments
   - Measures or initiatives aimed at influencing individuals and organizations indirectly by means of information, awareness raising, setting of moral standards or codes of conduct.

1. How to know if a policy instrument contributes to the shift to sustainable consumption and production?

2. Can green economy, green growth, circular economy and other similar policy instruments be reported?

3. Can implementation activities that are not linked to a reported policy instruments be included in the reporting?

4. Should 10YFP National Focal Points only report policy instruments and activities developed and implemented by their own institution?

5. My country participated in the pilot reporting in 2017: should I / can I include what was reported then into the new reporting?
Each policy instrument and implementation activity shall be reported separately (one policy instrument or implementation activity = one questionnaire submitted).
Welcome to your platform on Sustainable Consumption and Production
Value of reporting

1. High-Level Political Forum (annually)
2. Annual report on the SDGs
3. Annual report on the 10YFP to HLPF
4. Briefing on SCP policy impacts
5. Voluntary National Reports
6. SDG Indicators database (UN Stats)

6. One Planet network annual magazine, success stories and website
Value of reporting

ACTIVITIES 2013-2018

Tout activities
1949

What was reported?
- Outreach and communication for SCP: 41.0%
- Knowledge resource and technical tool: 26.9%
- Training for SCP: 15.6%

When were the activities completed?

Total Output
Next steps

- FAQs to be shared with all NFPs
- Recording of webinars made available
- Templates made available in Word (Sept.)

If you need guidance or want to make suggestions, contact the Secretariat!
