ONE PLANET SPP PROGRAMME:
Task Team Healthcare

Dr. Rosemary Kumwenda, SPHS Coordinator, UNDP
Ms. Mirjana Milić, SPHS Associate Coordinator, UNDP
UN Environment, Paris, 19-20 February 2019
PROBLEM & WAY FORWARD

• Patients, health care workers and public exposed to environmental and health risks during implementation of health programmes

• Direct exposure to biological or chemical agents and public health risk from improper waste management or burning waste

• Public procurement identified as a key entry point for promoting more sustainable production and consumption patterns
FIRST, DO NO HARM

Climate change is a medical emergency.
“We have a moral mandate to respond, and the power to be a tipping point towards a better future.”

https://www.youtube.com/watch?feature=oembed&v=vv5paSCTYAk
THE BIG IDEA

Facilitate the application of knowledge/tools and support streamlining of sustainable procurement in organizational policies and implementation practices in the health sector
PART #A

SITUATION ANALYSIS
FIVE QUESTIONS

1. ONGOING WORK
2. IDENTIFIED GAPS
3. NETWORK BENEFITS
4. EXISTING CAPACITIES
5. NEEDED STAKEHOLDERS
What work is already being done and what initiatives/projects exist relevant to the scope of the interest group (outside the scope of the SPP Programme)?

- Low-carbon purchasing in the health sector
- UN HLCM SPP Working Group
- Sustainable Health in Procurement Project (SHiPP) 10 countries globally
- Guidance on Green/Sustainable Procurement Criteria for the Health Sector
- Global Sustainability Index Institute (UNGSII)
- Sustainable Procurement Trainings for the Health Sector
- List of chemicals of concern published and priorities identified for substitution
- HCWH/GGHH in Europe case studies implementing the EU SPP Directive in the health sector
- SAICM 2.0 identification of safer disinfectants
- HCWH/Practice Greenhealth Market transformation
- Study on Guidelines for Assessing SPP of Medical Institutions in China and investigation of the current status of SPP of medical institutions
- ISO 20400 - Sustainable procurement
- WHO Pre-Qualification Scheme
SITUATION ANALYSIS

IDENTIFIED GAPS

Was hasn’t/isn’t being addressed on the topic, what is additionally needed?

• Low levels of awareness, inadequate coordination
• Lack of national policy and overseas successful experience
• Lack of standardized global measurement and accountability criteria
• Low capacity and fragmented approach to training
• Market research and market availability of substitutes: PVC-free blood bag
• Lack of eco-labels and market availability for WIDES identified disinfectants
Why would the topic of the interest group benefit from the SPP programme network collaboration?

- Use available and wide global networks and initiatives
- Learn and share experiences with other sectors/stakeholders
- Adapt training materials to health sector
- Conduct joint studies on relevant projects
SITUATION ANALYSIS

EXISTING CAPACITIES

International ORGs
SPHS/UNDP
Sustainable UN Facility (SUN)

Civil-Society ORGs
HCWH

Governments
US EPA
Environmental Development Center of Ministry of Ecology and Environment (EDC) and CEC - China

Private Sector
Green Electronics Council
EcoVadis

Scientific & Technical ORGs
Which other stakeholders, organizations, networks etc. are missing that would bring added-value to the interest group?

- UN Global Compact
- Stockholm International Water Institute
- UK National Health System
- Scotland National Health System
- EU
- AU
- PAHO
- Chemical footprint project
- *Private sector + academia*
PART #B
STRATEGIC IMPLEMENTATION ROADMAP
### STRATEGIC IMPLEMENTATION ROADMAP

#### OBJECTIVE AND KEY DELIVERABLES

<table>
<thead>
<tr>
<th>What we aim to achieve and how (key activities/deliverables)?</th>
<th>How does this help countries implement SPP?</th>
<th>How does it help SDG12 implementation?</th>
<th>Identify Lead and Partners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Support SCP <strong>capacity-building</strong> in dvlp countries</td>
<td>Education on SCP and prioritization</td>
<td>SCP changes in practice (use of knowledge and tools) (SDG3, SDG12, SDG5, SDG6, SDG7, SDG8, SDG9, SDG13)</td>
<td>HCWH UNDP</td>
</tr>
<tr>
<td>Develop Sustainable Procurement <strong>Index</strong> on Health</td>
<td>SCP monitoring and reporting; Identification of alternatives</td>
<td>SCP commitments and standardized monitoring (SDG3, SDG5, SDG10, SDG 12)</td>
<td>UNDP HCWH</td>
</tr>
<tr>
<td>SCP sharing <strong>platform</strong> continuous update to cooperate and share benefits (<a href="http://www.savinglivessustainably.org">www.savinglivessustainably.org</a>)</td>
<td>Access to SCP network, aggregated demand, measure of success and impact</td>
<td>Production of knowledge and technical tools, understanding of benefits (SDG 12)</td>
<td>UNDP HCWH</td>
</tr>
</tbody>
</table>
### Activities and Key Resources

<table>
<thead>
<tr>
<th>Activities</th>
<th>Lead and Partners</th>
<th>Timeline</th>
<th>Resources (in-kind / financial)</th>
</tr>
</thead>
</table>
| Support SCP **capacity-building** in dvlp countries | UNDP HCWH | On-demand trainings  
• Vietnam (6-8 Mar 2019)  
• Argentina (3-5 Apr 2019)  
• Global SCP Forum (Jul 2019, Tanzania) | Secured In-kind |
| Develop Sustainable Procurement **Index** on Health | UNDP HCWH | March-December 2019  
• **Expert workshop** (May 2019, Istanbul) | Secured Financial |
| SCP sharing **platform** continuous update to cooperate and share benefits ([www.savinglivesustainably.org](http://www.savinglivesustainably.org)) | UNDP HCWH | Ongoing | Secured In-kind Financial |

STRATEGY LINKAGE, REPLICATION AND POTENTIAL FOR SCALING-UP

• **Indicate the KPIs** of the overarching strategy that the initiative links to/supports.

**Objective 1**

- *Policies: number of countries reporting on SDG 12.1 that declare they have received support from the One Planet network. Target: 30*
- Outreach: increase in number of countries reporting on SDG 12;
- Outreach: number of interventions and official documents referencing the 10YFP or the One Planet network at HLPF. Target 110

**Objective 2**

- *Production of knowledge and tools: number of knowledge and tools uploaded on the website*
- Use of knowledge and tools: year-on-year increase in use of knowledge, tools (downloads)
- Changes in practice: number of high impact practices replicated. Target: 30
- Financing the shift: funding catalysed or unlocked or saved through actions supported by the One Planet network. Target: 5 USD for every 1 USD invested
STRATEGY LINKAGE, REPLICATION AND POTENTIAL FOR SCALING-UP

• Indicate the KPIs of the overarching strategy that the initiative links to/supports.

Objective 3
• *Network: number of engaged partners (reporting annually). Target: 75%*
• Commitments: increase in number of high level commitments to the programme’s key messages or agenda
• Policies: number of policies, laws and financial instruments influenced by the One Planet network

Objective 4
• *Production of knowledge and tools: number of strategic briefs providing a unified vision on addressing key environmental and social challenges. Target: 15*
• Impact indicators: number of SCP impact areas quantified (actual or projected), including through quantified impact of policies and practices. Target: 21
STRATEGY LINKAGE, REPLICACTION AND POTENTIAL FOR SCALING-UP

Identify potential for replicating/scaling up and relevance to both developed and developing countries context.

- Great potential for scaling-up mercury elimination and substitution in non-project countries (Minamata Convention)
- Potential for scaling-up non-incineration technology (Stockholm Convention)
STEP #C

EXPECTATIONS FROM THE 19-20 FEB PARIS MEETING
Finalization of Plans of Action for each interest group following the in-person workshop in Paris, will entail:

- **Integrate feedback** and outcome of workshop discussions in the draft Plans of Action (facilitated by Interest Group Lead partner);

- Take a **decision on how to carry forward** the Interest group(s) in question;

- For those Interest Group with positive decision, **consult with at least 3 Public Procurement authorities** on the developed Plan of Action;

- **Confirm the Lead and Partners** involved in the Interest Group.
WE can make a BIG difference.

Thank you for your time and interest to innovate with us.

We look forward to moving this important work forward with you.
