

ICLEI's procurement work

Mark Hidson

Deputy Regional Director

Director ICLEI's Global Sustainable Procurement Centre

Purpose

- Clear direction and framework
- Outline the objectives (2019-2022)
- Elaborate and coordinate relevant activities

What's the ultimate aim of the One Planet Network SPP Programme?

Lessons learnt

- Need common goal and objectives
- Build a framework around the right activities
- Draw on work already developed
- Ownership is with the 'right' members
- Focus on the end target group
- Implementation
- Need tangible activities
- Resources
- Good management processes

Vision

A world in which environmental, economic and social aspects of sustainability are embedded in public procurement policies strategies, processes and practices while promoting good governance and integrity in public procurement

Goal

Accelerate the uptake and implementation of procurement at national, regional and local level worldwide to ensure sustainable consumption and production patterns and assist in the delivery of Sustainable Development Goal 12 (SDGs).

Objectives

- Support implementation (national, local, sectoral)
- Work with suppliers and business
- Mobilise political support and leadership
- Contribute to understanding and demonstrating impact

Example activities

Recruitment

Secure resources

Collaborative projects

Scale up and replicate

Build synergies and cooperation

Joint statements of demand

Advocacy

Engage with key players
