UNEA - 4
Sustainable Infrastructure

One Planet Network
SBC and SPP cross-programme collaboration
At UNEA-4 States Endorsed Resolution on Sustainable Infrastructure

- The resolution highlights the **centrality of infrastructure** to the achievement of the 2030 Agenda.

It calls on Member states and all relevant stakeholders to:

- **embrace system-level approaches** to the development of all infrastructure assets;
- **apply appropriate sustainability criteria** in the infrastructure development process;
- **create an enabling national environment** for the promotion of sustainable infrastructure projects;
- **build technical and scientific expertise** in developing countries;
- **promote nature-based solutions**; and
- **strengthen existing public-private partnerships (PPPs) and mutual exchange.**
Request to UN Environment

Addressing explicitly the 10YFP and its programme on building and construction as well as its sustainable public procurement programme

Requested support:

- Promoting existing guidelines and best practices, including social and environmental safeguards;
- Creating and supporting multi-stakeholder dialogue platforms that contribute to open and transparent deliberative processes for generating and sharing knowledge;
- Building on and strengthening existing partnerships for sharing and implementing best practices;
- Developing, within available resources, the capacity of government policymakers and other relevant stakeholders in the public and private sectors to use available data, knowledge, tools, approaches, and other mechanisms;
- Building on existing initiatives and forge strengthened public private partnerships to facilitate private investment in sustainable infrastructure subject to available resources;

Continue and strengthen work to facilitate coordinated efforts in all regions to promote the development and use of appropriate sustainability criteria for infrastructure.
Envisaged cross-programme collaboration: SBC and SPP

- Both programme have expressed their willingness to addressing the requests and developing a joint Plan of Action [to be discussed and defined on June 6th in Amsterdam]
