## One Planet MPTF for SDG 12

### One Planet MPTF on SDG 12 :

- ✓ **Catalyser for the implementation of “One Plan for One Planet”**
- ✓ **Assist thematic programmes in “One Plan for One Planet” implementation**
- ✓ **Leverage on the knowledge and tools available through the One Planet network to enable successful policy implementation**
- ✓ **Assure rapid and strategic resource allocation by the Steering Committee following an inclusive project development approach initiated at country level with the involvement of National Focal Points and based on country’s SCP readiness**
- ✓ **Be the main cohesive delivery mechanism for SCP at national level**
- ✓ **Apply Monitoring and Reporting framework “Indicators of Success: demonstrating the shift to SCP” as a tool for project progress assessment, providing yearly overview of tangible, science-based information on the achievements of the projects**
- ✓ **Strengthen resource mobilization strategy building on the recognition of importance of SDG 12 and its contribution to other goals; and on addressing fragmentation and small-scale implementation on the ground by bringing the capacities of UN-agencies together**
- ✓ **Guarantee enhanced efficiency of fund administration**

# Multilateral Development Bank Leveraging and Mobilizing Model - a case study

- In February 2018, a Swedish insurance company, [Folksam](#), partnered with World Bank group on a USD 350 million private placement bond that focused on four SDGs:
  1. Good Health and Well Being (SDG 3)
  2. Gender equality (SDG 5)
  3. **Responsible Consumption and Production (SDG 12)**
  4. Climate Action (SDG 13)
- According to the World Bank, **investors are in favor of these products** because they are able **to maximize social good** and at the same time **maximize financial returns**.
- **World Bank supports is driven by countries**, therefore it is necessary to pitch the initiative to ministries of finance and planning in most case to submit a formal request to the World Bank for development support
- Project Case study 1: Waste Management and Recycling in China (SDG 3, **SDG 12**, and SDG 13)
- Project Case study 2: Water and Sanitation in Rural India (SDG 3 and **SDG 12**)
