Progress, Challenges and the Way Forward

One Planet network – taking stock at mid-term

Cecilia Lopez y Royo & Sofie Clausen
Secretariat

6th of June 2018
12.1 Implement the 10-year framework of programmes on sustainable consumption and production, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries.

8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead.
Who we are

• An implementation mechanism of sustainable Development Goal 12
• The One Planet network: a multi-stakeholder partnership for Sustainable Development
• A network that leads the shift to sustainable consumption and production, providing unified and coherent direction, tools and solutions
A multi-stakeholder network that has formed to implement the 10 year framework of programmes on sustainable consumption and production.
“The 10-year framework of programmes on sustainable consumption and production patterns should be reviewed at the end of five years to assess benefits, challenges and implementation”

**Demonstrating the shift to SCP**

**Indicators of Success Framework**

**IMPACT**

Increase resource efficiency and decouple economic growth from environmental degradation, creating decent jobs and contributing to poverty eradication and shared prosperity

<table>

**OUTCOMES**

Accelerate the shift towards SCP in all countries by supporting regional and national policies and initiatives

**INDICATORS:**

3.1 SCP in policy instruments
3.2 SCP monitoring and reporting
3.3 Education on SCP
3.4 SCP changes in practices
3.5 SCP commitments
3.6 Coordination on SCP
3.7 Use of SCP knowledge and technical tools

**OUTPUTS 1**

Support capacity building and facilitate access to financial and technical assistance to developing countries

<table>
<thead>
<tr>
<th>INDICATORS:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 SCP Projects</td>
</tr>
<tr>
<td>1.2 Financing the shift to SCP</td>
</tr>
<tr>
<td>1.3 Training for SCP</td>
</tr>
</tbody>
</table>

**OUTPUTS 2**

Serve as an information and knowledge sharing platform on SCP to enable all stakeholders to exchange and cooperate

*Due to the nature of the One Planet network data quality may vary from indicator to indicator and programme to programme. All data is subject to annual progress updates and further data quality assurance processes to continuously improve the reporting processes and systems, and to ensure reliable and consistent reporting on activities related to SCP and SDG 12.1.1.

**Financial value extracted from reported budgets of SCP projects (indicator 1.1)
Results per programme

NUMBER OF ACTIVITIES BY PROGRAMME 2012-2017

- Formal education
- Changes in practices
- High-level commitments
- Monitoring and reporting instruments
- Coordination mechanisms
- Policy instruments
- Trainings
- Knowledge resources and technical tools
- Projects
- Outreach and communication activities

Programmes:
- Public Procurement
- Tourism
- Buildings & Construction
- Consumer Information
- Lifestyles & Education
- Food Systems
Independent External Review

Key strength: Multi-stakeholder network that has formed and has the potential to be transformational

Key weakness: Lack of overarching strategic objective, strategic priorities and a clear objectives and outcomes.

Key Opportunity: Inclusion of Goal 12 in the 2030 Agenda

Key challenge: Slow and fragmented action on sustainable consumption and production

- Comprehensive desk review
- Online survey to entire network
- Targeted interviews (~70)
- Report completed
- Inputs to the strategy development
Taking-stock at mid-term

Key trends and recommendations on the shift to SCP across the One Planet network
What does the data tell us?

### ACTIVITIES IMPLEMENTED 2012-2017
*(Percentage of 1669 activities implemented)*

1. Focus on implementation of policies

Pilot reporting on SDG 12.1.1: National policies on SCP

- 303 policies and policy instruments reported
- 37% in macro-policies, 35% in sectoral policies, 29% ad-hoc SCP policies and plans
- 46% regulatory approaches; 43 % voluntary approaches. Financial instruments:11%
- 10% of coordination mechanism are mandated to coordinate policy implementation across ministries
2. Foster the application of existing knowledge and technical tools

ACTIVITIES IMPLEMENTED 2012-2017
(Percentage of 1669 activities implemented)*

- Outreach and communication activities: 32%
- Knowledge resources and technical tools: 24%
- Policies and policy instruments: 22%
- Trainings: 12%
- Use of resources and tools: 3%
- Coordination mechanisms: 2%
- Monitoring and reporting instruments: 2%
- High-level commitments: 1%
- Changes in practices: 1%
- Formal education on SCP: 1%

- 396 knowledge resources and technical tools on SCP produced
- 12% of these reported information on the use of this knowledge and tools
3. Strategic and targeted communications to mobilise support for SDG 12

**Strategic communication on demonstrating the benefits of SCP is key to:**

- Demystifying SCP and making understandable and relatable
- Positioning it as an integrated approach to sustainable development
- Mobilising the necessary political support for the shift to SCP
4. Prioritise identification & dissemination of new and improved practices

Changes in practices offer **tangible innovations and solutions** for the shift to SCP with **net positive impact**

### TYPE OF CHANGES IMPLEMENTED

- **New or improved technologies + improved processes and systems**: 40.6%
- **New or improved technologies + labelling schemes, certification and standards**: 23.8%
- **Fostering change through education practices**: 12.9%
- **New or improved technologies**: 7.9%
- **Improved processes and systems**: 7.9%
- **Labelling schemes, certification and standards**: 6.9%

### TYPE OF PARTNERS IMPLEMENTING CHANGES IN PRACTICES*

- **Business**: 40%
- **Civil society**: 20%
- **Scientific and technical organisation**: 7%
- **National government**: 13%
- **Local government**: 7%
- **United Nations / Intergovernmental organisation**: 13%

- **88 changes in practices implemented**
- **326 governments and other organisations applying new or improved practices on SCP**
- **13 integrations of SCP into formal education (33 countries)**
5. Coordinated action at country level

To support the implementation of SDG 12 solutions and initiatives need to be:
- Conducive to taking action on SCP at national level
- Coordinated at country level, including through engagement of national focal points and with the support of UN country teams
6. Quantifying impacts & benefits of SCP

Examples of global estimations by the International Resource Panel with relevance to SCP:

- Reduction of natural resource use by 26% by 2050 (through implementation of SCP practices)
- Global emissions falling to 63% below 2010 levels by 2050 (through implementation of SCP practices)
- 19 million premature deaths annually due to the way societies use natural resources in production and consumption
7. Pooled funds for the implementation of SDG 12

- UN Secretary General: SDG 12 is the “least well resourced SDG”
- 10YFP Independent review: 10YFP is “drastically resource constrained”

Pooled multi-partner funds provide a strategic entry point for channelling financial resources to catalyse and support the delivery of SDG 12 as a transversal Goal.
8. Mobilise operational multi-stakeholder partnerships for SDG12

THE ONE PLANET NETWORK

- Civil society: 39.8%
- Business: 19.0%
- National government: 17.8%
- Scientific and technical organisation: 16.7%
- United Nations / Intergovernmental organisation: 6.1%
- Local government: 0.7%

1 operational multi-stakeholder partnership for SDG 12
700+ Partners
1,800+ tools, solutions and initiatives
130 National Focal Points
5 years of experience
“One Plan for One Planet”: Strategy 2018-2022

Strategy Objective 1:
An effective implementation mechanism for Goal 12 of the United Nations 2030 Agenda for Sustainable Development

Strategy Objective 2:
Catalyse ambitious action by providing tools and solutions that support the shift to sustainable consumption and production.

Strategy Objective 3:
Lead the systemic and cohesive implementation of sustainable consumption and production.

Strategy Objective 4:
Demonstrate the impacts of sustainable consumption and production and its role in addressing key environmental and social challenges.
“One Plan for One Planet”: Strategy 2018-2022

SO1: An effective implementation mechanism for Goal 12
- Monitor the shift to SCP to identify emerging trends and key challenges
- Support implementation of national policies on SCP
- Ensure coordination of country-level implementation of SCP initiatives
- Strategic use of pooled multi-partner trust fund
- Leverage the High Level Political Forum on SD to disseminate key messages

SO2: Provide tools and solutions for the shift to SCP
- Organise & disseminate knowledge and tools
- Foster the application of knowledge and tools
- Provide technical assistance & training
- Identify & promote successful practices
- Co-create solutions and strategic products

SO3: Lead the shift to SCP
- Be an authoritative voice on the progress on SCP
- Set the Agenda
- Advocate for joint key message on SCP
- Influence national and international action
- Increase SCP awareness
- Mobilise political support and commitments
- Strengthen partnership

SO4: Demonstrate the impacts of SCP
- Demonstrate that SCP is an enabler of a range of SDGs and targets
- Promote long-term benefits/impacts of SCP
- Collect available data or estimation on SCP impact
- Build on science-based evidence
- Jointly address strategic cross-cutting topics
Let’s all come together to implement the strategy and deliver on SDG 12

Thank you!
